FIRST FLOOR SLAB LAYOUT (1:100)

NOTES

-All dimensions are in mm.

-Foundation depth to be determined on site after aclear soil test.

-All reinforcement structure should be inspected by astructural engineer prior to casting.

-Reinforcement cover should be as stated

Columns	- 40mm
Beams	- 30mm
Slab	- 25mm
Foundation	- 50mm

-All walls less 200mm thick to be reinforced with hoop iron @ every alternate course (DPC) under the 1st course of all walls

-Provide anti- Termite treatment under ground floor slab and sub-structural works.

-Any descripances to be reported the Structural Eng. before any work commences

-Concrete strength to be vibrated class 25/20

-All column sections to be 300mm x 300mm unless otherwise shown.

-Y & D- Denotes high tensile steel to BS 4449-2005
