**TENDER NO: NG-CDF/MOIB/24/2024-2025**

**REQUEST FOR QUOTATIONS FOR SMALL CONTRACTS  
(BUILDING WORKS)**

## PREFACE

1. This Standard Request for Quotations (SRFQ) document has been prepared by the Public Procurement Regulatory Authority (PPRA) for use by Procuring Entities (PEs) for Request for Quotations for small contracts for goods, works, and non-consulting services, including maintenance services, management services, insurance, leasing, information technology, supply and installation of plant and equipment, and procurement of immovable assets/property. No open competition is required under these contracts and the tenderers are selected from a Procuring Entity's List of Registered Suppliers or from other known sources, usually not less five (5) firms or individuals of equal capacity and same line of business. No Joint Ventures (JVs) should be allowed in the case of request for quotations.
2. In case of quotations are considered abnormally low or abnormally high, the benchmark should be the Procuring Entity's estimate in the Procurement Plan or other estimate based on the Market Survey. It is expected that a Procuring Entity should call for quotations with a clear idea of what to expect as a reasonable quotation. In case of abnormally low or high quotations, the Procurement Entity should (a) review the specifications, quotation period (may be period given to give quotations was too short), conditions of contract, correctness of the estimate or (b) possibility of a collusion or cartels in the quotation process and/or (c) perception of the firms on the credibility of the Procuring Entity.
3. Abnormally low quotations should be rejected to avoid the inherent risk of a low tenderer not performing the contract. On abnormally high quotations, the PE should seek to establish if the cause of the abnormally high quotation was the specifications, conditions of contract, correctness of the estimate, a result of a possibility of a collusion in the tendering process, or perception of the firms on the credibility of the Procuring Entity or any other reason before re-tendering. In case the abnormally high quotation is found to be a result of a possibility of a collusion or cartels in the tendering process, the Procuring Entity would need to take measures to deal with it before re-tendering.
4. The procedures and practices presented in this SRFQ reflect the requirements in the Public Procurement and Disposal Act and its Regulations. This SRFQ will be used by Procuring Entities on a mandatory basis. Procuring Entities and other Users should ensure that they are using the latest version of this SRFQ, which can be verified with PPRA. Lack of its use could be basis for challenging decision on contract award.
5. The SRFQ is comprised of three parts, namely; the Quotation Procedures, Requirements for Supply of *Goods, Works or Provision of Non Consultancy Services*. Conditions of Contract and forms are indicated on the Table of Contents. Before using this SRFQ, the user should be familiar with the Public Procurement and Asset Disposal Act, 2015(the Act), Public Procurement and Asset Disposal Regulations 2020(Regulations) and relevant manuals prepared to guide public officials in the conduct of the procurement process. Before using this SRFQ, the User is advised to or should be familiar with the Act and its Regulations and any manuals prepared and issued by PPRA to guide public officials in the conduct of the public procurement process.
6. This SRFQ is to be used for contracts based on Schedules of Requirements and Specifications and not on admeasurement Bills of Quantities and a pre-qualification process having taken place. The Procuring Entity is expected to select at least five (5)firms from the List of Registered Suppliers and who, have no conflicts of interest, are not debarred from tendering and are not declared bankrupt or insolvent.. Foreign currency, and margin of domestic preference will not be allowed. Reservations are allowed but the selected beneficiaries or tenderers must be of the same category and capacity.
7. During preparation of this SRFQ document, the Procuring Entity should specify whether to allow the following:
  - i) Margin of Preference,
  - ii) Reservations
  - iii) Pre-qualification
  - iv) Alternative tenders

8. The document includes a lump sum contract and a payment schedule where the deliverables can be defined in physical and qualitative characteristics to enable payments be made on the basis of percentage completion of each deliverable or activity. For goods contracts, quotations are called for a listing of items of goods required, including their specifications. The period allowed for submission of quotations is usually short. Lengthy Arbitration processes, standstill periods etc., have been avoided. It should however be understood that complaints in public procurement cannot be totally avoided. Amicable negotiations should be encouraged in case of disputes or complaints.
9. The Procuring Entity should confirm that the items/contracts to be procured is in the PE's Procurement Plan. It should also confirm the estimated cost of the contract(s). The estimated time for completing contracts procured via quotations is usually very short. The cost estimate helps the Procuring Entity determine the quotation method as the applicable procurement method to be used and the determination if the lowest evaluated cost is unrealistically too low or too high. Prior to finalizing the Quotation Document, it is advisable for the Procuring Entity to recheck these estimates.
10. The estimates must be prepared by an expert in the field of the subject contract. The Estimates should be based on current market prices or on data collected by the Procuring Entity based on past (*but not historic*) contracts.
11. The Public Procurement Regulatory Authority welcomes any comments from the Users of this STD which will assist in revising (if need be) and improving the structure and contents of the STD.
12. The text shown in Italics is "Notes to the Procuring Entity". It provides Guidelines to the procuring entity in preparing a RFQ. "Notes to the Procuring Entity" as well as this PREFACE should be deleted from the final RFQ issued to the tenderers.
